EXPERIENCE

Ichiban Auto Limited, New Zealand— *Flutter Engineer*

December 2024 - Present | Remote

Developed the *Workshop Logic* mobile application from the ground up using Flutter. Designed and implemented complex UI components and state management architectures to ensure seamless user interaction. Integrated REST APIs and real-time features to support customers, technicians, and administrators. Optimized app performance for efficient memory and resource usage across devices. Continuously resolved production issues, enhanced code quality, and improved app stability through analytics-driven insights.

Marsa Technologies, Bangladesh — *Software Engineer*

June 2021 - November 2024 | Hybrid

Develop apps to support a large group of users for customers, pilots, Vendors & admins. Design complex app ui. Increase app user experiences. Optimize app for efficient use of resources. Solve issues reported by users.

AnazBD Corporation, Bangladesh — *Software Engineer*

February 2020 - May 2021

Develop a multi vendor ecommerce Web and Mobile Application to serve customers. Building cross platform apps for customers. Distribute day to day tasks among developers. Optimizing applications to provide the best experience.

SpinnerTech Ltd, Bangladesh — *Software Engineer*

October 2019 - January 2020
